

Environmental Policy Statement

Colleen Construction (UK) Ltd commits to achieving the highest standards with regard to environmental matters arising out of our activities. It is the intention of Colleen Construction (UK) Ltd to be at the forefront of our industry. An integral element of this sensitivity to environmental issues is that it may affect not only our employees but also our neighbours.

The Company is committed to ensuring continued compliance with all relevant environmental legislation, regulations, codes of practice and other standards to which the company subscribes.

When determining priorities for the allocation of resources, environmental objectives shall be given equal consideration with all other objectives.

All managers and employees have duties and responsibilities under this policy, and in order to ensure these are met, regular reviews of environmental performance will be carried out.

Aims of the Policy:

Colleen Construction (UK) Ltd recognizes that protection of the environment requires construction activity to be conducted in a sustainable manner. The Company is fully committed to best environmental practice and takes responsibility for its own environmental performance.

Colleen Construction (UK) Ltd has acknowledged these responsibilities by publishing an environmental policy. Our sites are committed to implementing the actions stated in this policy. In order to achieve this objective, Colleen Construction UK Ltd is:

- Establishing health, safety and environmental policies for which management has ultimate responsibility and which forms part of Colleen Construction (UK) Ltd business plans.
- Developing a comprehensive Environmental Management System (EMS), which ensure compliance with all relevant environmental legislation, regulations, codes of practice and other standards to which the company subscribes.
- Colleen Construction (UK) Ltd is also committed to the prevention of pollution.
- The EMS will evaluate the Company's environmental impacts resulting in the setting of clear objectives with the aim of establishing continual environmental improvement and environmental performance.
- The Company's overall performance will be monitored by regular audits and annual reviews, through integrating environmental management with health and safety management.

Policy Objectives:

The EMS will develop over time so that all key issues pertinent to the site will be addressed. The EMS will pay close attention to the following policy objectives and active objectives:

- Dispose of waste in a responsible and safe manner;
- Promote ownership and control of environmental issues at business level;
- Provide the necessary training and support in order to ensure that the site can fulfill the requirements outlined in this policy;
- Introduce programs that aim to minimize waste; and
- Minimize energy use through effective energy management.
